

QUALIFICATIONS

- Graduate with Bachelor of Architecture from University of N.C. Charlotte
- Registered AIA & IDP approaching ARE exam
- Proficient in Computer Graphic and Digital Art
- Multimedia & Web experience
- Expert Craftsman in Wood Metal and Ceramics
- Experience in contract writing
- BIM, CSI implementation experience

TECHNICAL PROFICIENCY

- AutoCAD™
- Revit 2008™ BIM software
- Form Z™ three-dimensional modeling
- Adobe PhotoShop & Illustrator™ print shop management and detailed color imaging.
- Micro Station™ animation and construction documents
- Archicad 9+™ BIM software
- Power Point™ animated interactive presentations
- Excel™ basic set up and interaction
- Enhanced CD, DVD audio and interactive media creation

HISTORY

2008 Glick Boehm Architects

Working as contractor in a team environment on projects ranging from a small restroom at a resort, small commercial, to two large middle schools, and military historic renovations and additions. Created custom presentations that utilized dynamic power point - 3D modeling tools. Was trusted to work on presentations and to present these high profile clients of GBA such as Atlantic Bank & Trust, Seabrook Island Resort, Holiday Inn Folly beach, and the City of Charleston's B.A.R.

2006-7 Rosenblum Coe Architects

Bees Ferry Fire Station 19; James Island Charter High School Modular Classroom Addition; Emergency Mold Remediation of 7th floor of MUHA's Children's Hospital, High-end Residential Additions; Synagogue Emanu-El addition and Renovation, Trident Tech's Berkley County Campus Roof Renovation, Mount Pleasant Municipal Center Renovation. *All projects utilized the Building Integration Management software: REVIT to create totally integral construction documents, and high resolution renderings/animations. I worked closely with contractors, coordinated submittals, researched product specifications.*

2006-7 Freelance Architecture

Designed kitchen for downtown Charleston residence, Awning addition for house on Montague with BAR approved drawings, Worked with B29 Solutions in preparing a CES provider ready product Power Point presentation for Coastal Glass Distributors.

2005-6 Chief Designer JRN design-build

Designed & built projects in historic down town Charleston (King street, Montague, Tradd, Broad) requiring careful coordination with City. Worked directly with sub-contractors in overseeing the construction process, Presented to boards such as the B.A.R. and the H.C.F. as chief designer.
Designed JRN Logo and website.

2004 Neil Stevenson Architects

Experience involved close work with clients, and intense project management, preparation of various documents including permit sets and B.A.R. conceptual review boards.

2001-4 Freelance Work

Rendered detailed interior elevations with Haute Design. Prepared drawings for pub design: "The Porch" in Charlotte. Co-designed restaurant in Charlotte's Gateway Village: "Cedar Street Tavern". Participated in Wilmington Urban Charette; Presented power point show to Fayetteville's Urban league with Urban designer Robert J. Barnhill. Permit set package preparation for Vanguard Properties in I'on.
Contracted to design a high end modern residence on the Isle of Palms.. Helped in the scoring of a full length film: "Phreaker"

2001 Harley Ellis Architecture and Engineering

Produced and coordinated Construction Documentation. Worked with clients ranging from Appalachian State U., IMRA, Ford Manufacturing, and others. Gained extensive training in 3D CAD & animation working in well established and highly respected firm.

1999 Shook Design

Worked closely with award winning designers to create urban design presentations, using Form Z to create 3D models of villages, facades, interiors, and animations. Closely involved with large-scale retail marketing presentations, utilizing Micro Station [Mac-based] to work in team, producing construction documents. Researched catalogues and marketing brochures to locate details and solutions for various retail and office projects. Notable project includes Birkdale Village, a large urban project which required a team of 7 architects and interns to carefully coordinate a full set of CD's for a 50 acre New Urbanism Village.

EDUCATION

1993-99

UNC Charlotte College of Architecture, Bachelor of Architecture

Curriculum included Structures 1-4, Ceramics, Furniture Design, Metallurgy, Music courses, Instrument Design, Early American School of Craft with Field Practicum, Urban Environmental Planning

Thesis: *The Phoenix Spa: A Comprehensive Design*

Worked summers building houses with various custom home builders.

AWARDS RECEIVED

1997
